UNIVERSOL

ABOUT US

Welcome to UNIVERSOL!

Here solidarity meets innovation, and people have the opportunity to make smart donations.

We are more than a platform; we are a community dedicated to fostering kindness, compassion, and social transformation.

www.universol.global

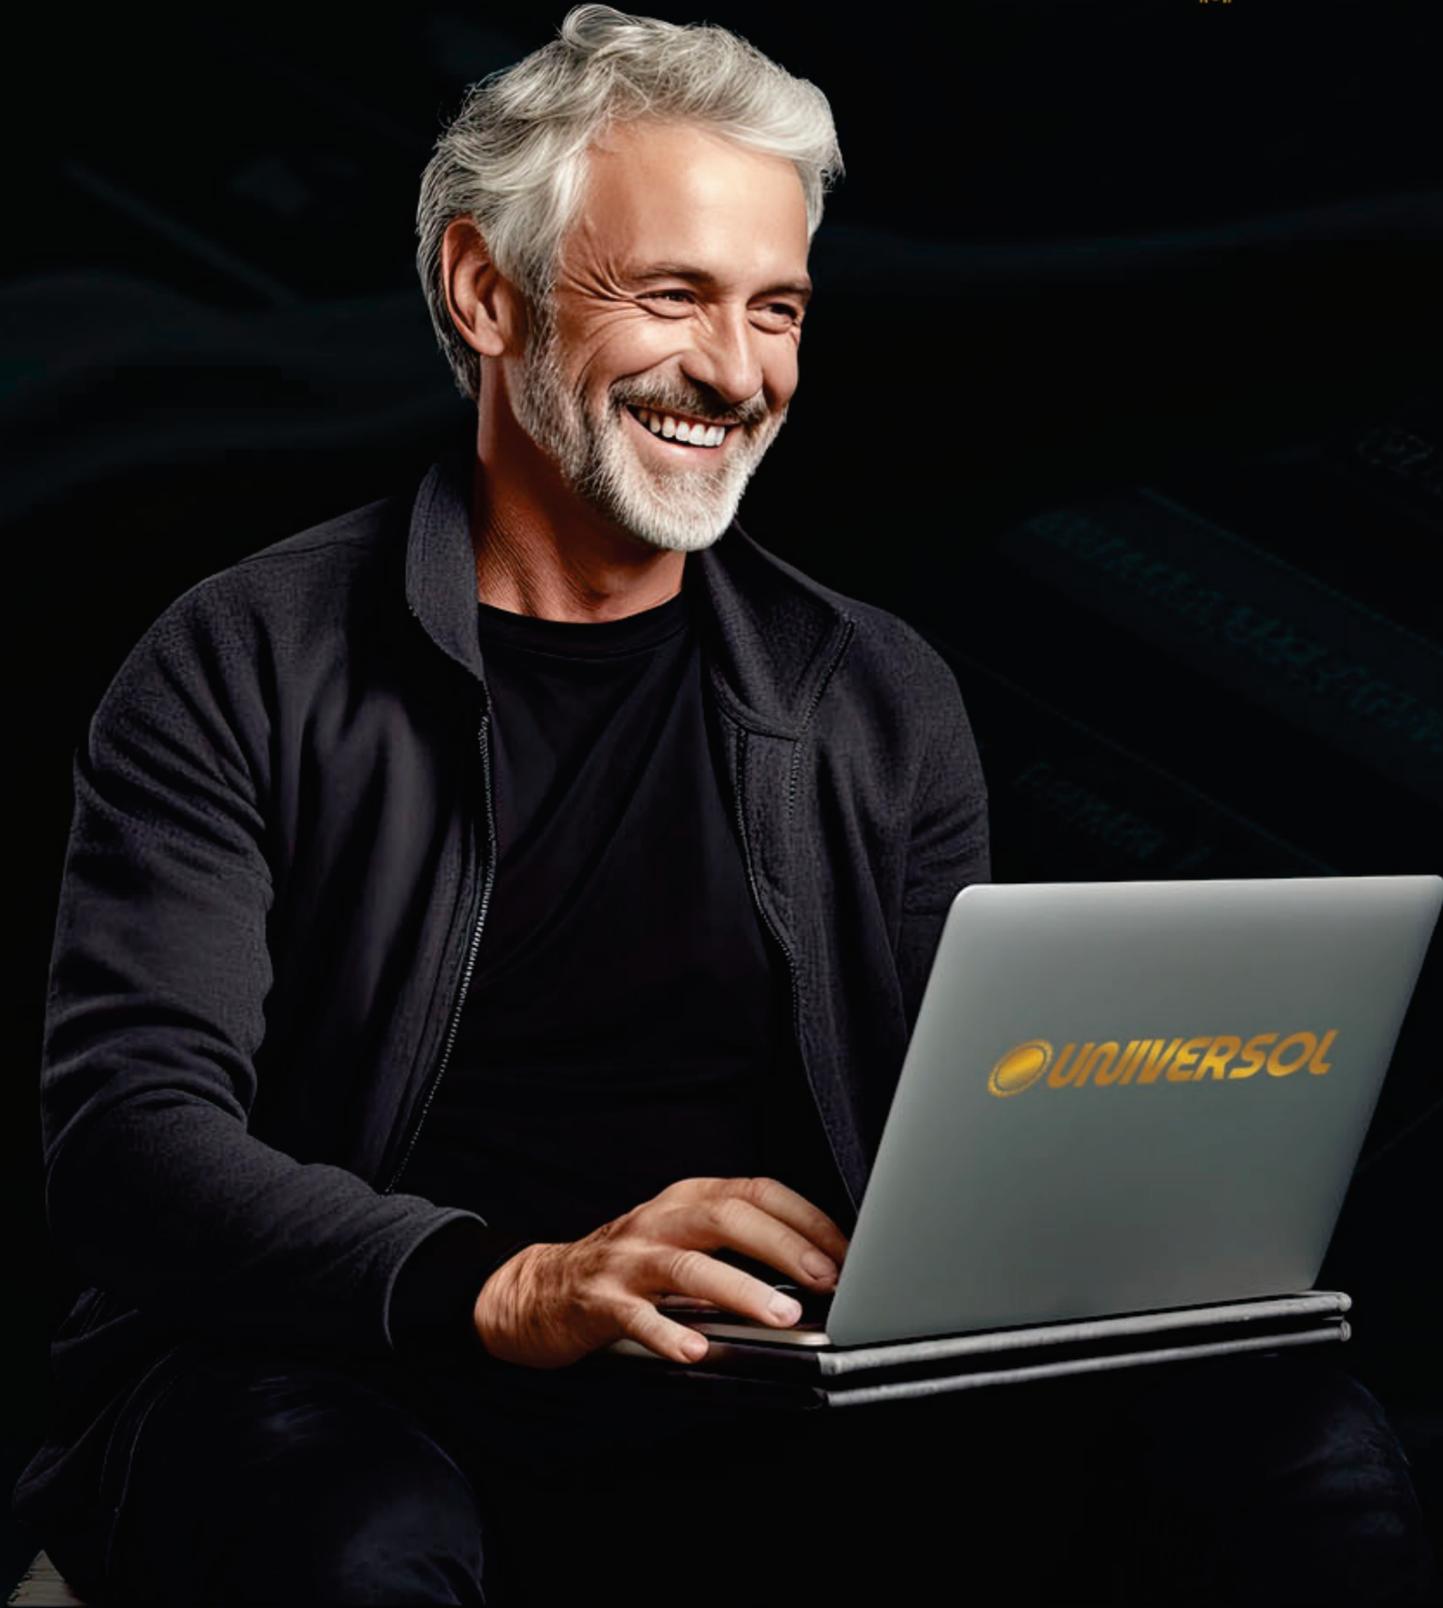

OUR VISION

Create a world where generosity manifests intelligently and effectively. We believe that everyone has the power to make a positive impact on the lives of others. By providing an innovative platform, we make it simple to connect those who want to donate and those who need support.

WHAT DIFFERS US

We use cutting-edge technology to create a safe and transparent environment where donations are made smartly, redirecting resources collaboratively. That's why we've built a community that genuinely cares about everyone's well-being.

THE POWER OFF DECENTRALIZATION

We are more than a movement, we have come with the proposal to innovate in the way we interact with the world. Our approach is grounded in decentralization, rejecting traditional concepts to embrace a more holistic and inclusive view of the global community.

www.universol.global

UNIVERSOL

A FRESH APPROACH

A Universol acredita na autonomia das comunidades e na capacidade de cada indivíduo contribuir para um mundo mais sustentável. Não seguimos modelos tradicionais, em vez disso, incentivamos a solidariedade direta entre as pessoas, promovendo a economia compartilhada e práticas sustentáveis.

BORDERLESS

Here, at UNIVERSOL, we do not support the idea of financial transactions. We aim to build meaningful connections and strengthen human bonds, not accumulate capital. We make it possible to collaborate without barriers, and our exchanges are built on trust, solidarity, and a desire to make a positive impact.

UNIVERSOL IS YOU

More than an idea, UNIVERSOL is a community shaped by individuals who share the vision of a fairer and collaborative world. Join us to create, collaborate, and challenge the established norms. If you believe in decentralization as a path to freedom and equality, UNIVERSOL is where your ideas come true.

To release your upgrade to the next levels:
A) Have an active guest before receiving the first donation.
B) Pay the maintenance fee until you receive the fourth donation.

Donating between people is legal

The practice of making donations has been around for a long time, it started spreading in the 1960s and until today it has worked consciously and spontaneously. It is legalized worldwide, including in Brazil in accordance with Article 538 of Law No. 10.406 of January 10, 2002.

UNIVERSOL is legal . Because it is not a company, it does not even receive amounts in centralized bank accounts or offer gains through financial operations, robots, or any digital mechanisms. UNIVERSOL is a Decentralized Online platform. It only connects and controls the community so that donations are direct from one member to another, where we call it "P2P" or PERSON TO PERSON, so we value the safety and autonomy of the community. There are no promises of earnings, but of growth from the decision to donate and invite guests.
